

## One Text

When you send a text,  
you don't know what is next.  
It could result in a wreck,  
and a very hurt neck.

Is it worth the consequence?  
Think twice on this,  
so that you do not dismiss,  
the seriousness of such a choice.

Think about all you could be,  
when you're a responsible licensee.  
You're options are limited,  
as an amputee.

What about the people around you?  
There are other drivers,  
and they want to be survivors,  
so don't strip them of their innocence.

*Arrive alive. Don't text and drive.*
