"Arrive Alive" Project

Someone's at the party with alcohol
Someone's at the party I know-o-o-o
Someone's at the party with alcohol
And now they're startin' up the old Volo
He's singin' I can dri-i-ive
I can drive I'm fi-i-in
I can dri-i-ive
I do this all the time

He drove away in his Volvo
He drove away I know-o-o-o
He drove away in his Volvo
And now he's slippin' on the ice and snow
He's singin' I don't want to die
I just want to arrive ali-ive
I don't want to die
Why did I choose to drink and drive?

His parents get a got from the hospital
His parents got a call I know-o-o-o
His parents get a call from the hospital
And now all their tears do flow
And they're singin' this just couldn't be
This just couldn't be-e-e-e
Oh, don't let it be
He was only seventeen
