

Drunk Driving And The Ways To Prevent It

The ways anybody can prevent drunk driving and therefore preventing the deaths of young people is by doing the following:

- 1) Designate a safe driver, somebody who won't be drinking that night at all and has a valid driver's license
- 2) Don't let teenagers or other young people get their hands on any alcohol, in other words don't leave any alcohol lying around the house anywhere where young people could get their hands on it
- 3) Don't introduce kids to alcohol at any age, especially when they are young
- 4) Keep track of your kids when they leave the house and if need be, give them a curfew so that they show up safe and on time

These are just some of the ways that drunk driving and the deaths of many young people can be prevented.
