

Think it Through

One student killed, a distracted driver
If you don't drink you will be a survivor
Three teenagers dead, no control of car
You thought you would be okay until you didn't hit the tar

Texting and driving ended in a crash
One week later another life gone in a flash
Distracting driving is not alright
More than one life could be gone that night

While driving fast you think you're cool
That one text you had to do
The loss of a friend will overrule
Next time please, think this through
