

Arrive Alive!!!

Alcohol, alcohol, alcohol.
Fermented grains, fruits and vegetables
That depresses a person's vision
Like their head is wrapped with gauze.

So fellow teens,
You may go to parties
And drink like a fish,
But always remember that alcohol is a weapon of destruction.

It puts you on risk for many things.
It makes you as slow as molasses in January.
But I understand we are all weak sometimes.
Weak when we should be strong,

Strong when we should back down
From peer pressure that leads to consumption of alcohol.
Therefore fellow teens,
Do not drink and drive.

Doing so could end your life as fast as lightning
We need you like the ocean needs the shore,
Night needs day,
Lungs need air,

Ice cream needs a spoon.
We are tomorrow's future leaders.
Therefore, please do not drink and drive
And you will arrive alive.
