

Life Taken In A Matter Of Seconds - Devastated, mortified,depressed

Their thinking, how could this have happened

Were we not good enough for our child to strive to stay alive?

Was our love, support and warm affections not good enough?

He drank and drove? Took his future into his hands

Made the decision to start the ignition

How will we live with the facts thathe stepped on those breaks

To take his life away.

Is this how you want your family to feel?

To suffer with regrets Of not stopping you the moment they last saw you

You left one night after dinner

Thinking they'll see you in a couple of hours

But instead, face a cop with a sorry expression.

Think before you Drink and Drive

Those who love you will suffer more thank you think

Years will go by But they will never forget

You can't escape death

But you shouldn't take your life away in a matter of seconds.
