

It was only one drink  
Yeah, one drink that killed me  
I didn't think  
All I did was chill  
Couple of beers  
With my peers  
Passing the time away  
Having some fun  
Went for a drive  
And then I was done  
When I say done  
I mean gone  
Gone forever  
I can never come back  
Back to the life I had  
The life I enjoyed  
Can't say goodbye  
All I can do is think  
Think about my mistake  
Up in heaven  
Watching down  
On what I'm missing  
I'm missing so much  
And there's no one to blame  
But me.

Why drink and drive  
Its no fun  
You'll just end up like me  
Sitting up here  
Watching and wondering  
You can't move forward  
And you can't go back  
So be smart  
Don't ever just chill  
With your peers  
Having a couple beers  
Because it's just a mistake  
Waiting to happen...
