## ARRIVE ALIVE

The older I get, the more I hear people to tell me to be safe as I go out for the night due to parties or late night events. I know that they're implying for me to not drink and drive, I know that they're telling me to be cautious, but most importantly, I want them to know that I understand. I keep hearing all these stories about people who have died from crashing due to alcohol abuse. I wonder, how did those families and friends feel? I don't want to imagine the feeling of loss due to a friend or family simply making a mistake. I don't want to hear another story of an unfortunate person having had died from drinking and driving. I do not want to hear more concerns about this anymore when so much has happened, so please make sure to let those around you to arrive back home alive.
